Environment Policy

South Stawell Gold is committed to providing responsible stewardship of the natural resources over which we have control or influence. We intend to exercise this stewardship through:

- The establishment of a strong expectation that at all times our people (staff and contract) will consider and respect the environment we operate in and this will be incorporated into our planning and operational decisions
- Observing all environmental laws and regulations, as required to fulfil our commitment to a sustainable future
- Prioritizing and providing adequate resources to manage our environmental effects
- Promoting environmental awareness and communication between our employees, contractors and the community
- Continually improving our environmental performance, and participating in the community objectives of:
 1. Reducing the effect of emissions
 2. Improving energy efficiency
 3. Wisely consuming natural resources such as water
 4. Where possible focus on economic recycling
- Rehabilitating the environment affected by our activities, with the expectation that all work areas will be returned to (or improved on) their condition prior to works.
- Monitoring, auditing and reporting on our environmental performance
